October 22, 2024

Knippa ISD Parent/Guardians,

The District can confirm that on Thursday, October 17, 2024 a 5<sup>th</sup> grade student was found in possession of a list containing the names of several students and faculty members. Upon learning of the list, the District immediately conducted an investigation and contacted local law enforcement in accordance with the District’s standard procedures and legal obligations. Additionally, parents of the students whose names were on the list were promptly notified about the situation.

Due to student privacy laws and recognizing that this matter is still under investigation by local law enforcement, we are unable to share further details at this time. However, we can confirm that the student involved is no longer enrolled in the District.

The District takes this incident very seriously and is fully committed to upholding the Student Code of Conduct to ensure a safe and nurturing learning environment for all students. The District encourages parents, students, and the entire community to report any threats or safety concerns involving the District, its students, or employees immediately so that appropriate actions can be taken.

Respectfully,

Benny P. Hernández  
Superintendent of Schools  
Knippa Independent School District
